

Grades 9-12 | Watch & Listen

# Discussion Questions

You may want to discuss the video to reinforce your teen's learning. Below are some questions that you and your teen might ask each other. You can also use the Recycling Simplified (Grades 6-12) handout included in the Bonus Learning Resources for ideas. The first page of the handout shows things that can and cannot be recycled, and the second page contains Expert Tips on recycling the right way.

**What things were new to you?**

Here's something I learned about recycling...

**What causes contamination in recyclables?**

**After watching the video, are there any things we should change about the way we recycle at home?**

Let's figure out the best way to do that.
