Questions & Tips

Here are some ideas for discussing "Emily Raccoon and the Ginormous Garbage Pile" with your child.

What mistakes did Emily make? What could she do better next time?

What did Joe, Emily's brother, learn about why recycling is important?

Where do we put our recycling here at home?

Turn what your child has learned into action:

Have them help you over the next week with the recycling to make sure you and your family are doing it correctly. At the end of the week, congratulate your child on becoming an expert recycler with the Recycling Super Star certificate. You may want to take a picture of your child's certificate and share with friends, family, your child's teacher, etc.
